

Good neighbours

Do you want to be more environmentally sustainable?

And get to know your neighbours at the same time?

Albert-Eden Local Board wants to support local residents to adopt and maintain more sustainable lifestyles within their homes and communities – to create Eco Neighbourhoods. The goal is to create a more sustainable future for all of us.

We want to connect people within neighbourhoods to find fun ways to make a real difference. This is an opportunity for you to learn different ways to be sustainable – you might learn about composting, organic food growing, chicken keeping or how to minimise waste and water use.

We invite you to contact us and we will help you join forces with other households in your neighbourhood.
